In a nutshell, the possibilities with OKOMMERCE are limitless. Seamless integration of APIs, a comprehensive and powerful admin panel and a fully customizable front end with a website and separate mobile apps for customers, suppliers, delivery agents, and store.

API Integration

OKOMMERCE is API driven which means you can integrate any API that you need. Whether it be a payment gateway, or third party softwares such as accounting softwares, ERP, or even warehouse management, OKOMMERCE has got you covered.Run your Ecommerce platform with minimal internal management as the API integration takes care of the complex implementations.

Admin Panel

OKOMMERCE provides a powerful admin panel that allows separate management of suppliers, delivery agents, and delivery companies. The admin panel provides all the features required to manage your ecommerce store.
Update your supplier list, configure billing agreements, manage delivery companies and drivers, track delivery schedule, and other operations all from one robust admin panel.

Front End

The front end determines how a website looks and performs. With OKOMMERCE, get a great looking website with multiple design iterations that you can choose from. On top of that, there are four separate mobile apps for customer, supplier, delivery agent, and store.With our elegant template designs, your ecommerce site will attract customers and provide a great shopping experience for them.

WHY OKOMMERCE?

OKOMMERCE

Enterprise Ecommerce Platform

OKOMMERCE is one of a kind enterprise ecommerce solution that has revolutionized the ecommerce industry. Create a fully functional online business with all the tools and features required to optimize and take it to the next level. The best thing about OKOMMERCE is its competitive pricing which is hard to beat. Still need more reasons? Read on.

For Large Scale Business

OKOMMERCE is specialized for large scale businesses. Even if your ecommerce platform has over 10000 SKU, 500,000+ visitors per month, and 1000+ orders per day, the performance of the system won't be affected in any way and will remain the same.

Efficient Management

A large ecommerce platform is not easy to manage by any means. We realize this and have developed OKOMMERCE in such a way that makes it easy to manage the whole system efficiently with less manpower without errors.

API Based Connectivity

OKOMMERCE is fully customizable and connectable. You can easily connect with the frontend via a vast selection of APIs. Integrate or build your mobile or website frontend easily with OKOMMERCE.

Sell Everywhere, With One Platform

Cater to your customers through the power of multi-channel eCommerce, offered by OKOMMERCE. Give your customers the luxury of a range of options to choose from for all their shopping needs.

SECURITY AND
ENCRYPTION

OKOMMERCE
Enterprise Ecommerce Platform

Security

We don't compromise when it comes to security. Your data is 100% secure with OKOMMERCE. You can be at ease knowing your store is safe and secure with us at all times. OKOMMERCE offers multi-layer security, so focus on making those sales and let us handle the safety and monitoring.

Encryption

OKOMMERCE encrypts all important data tables of your ecommerce site in 256 bit encryption technologies. Like customer information, payment information, purchase history, and other valuable information are encrypted. So it improves your data security.
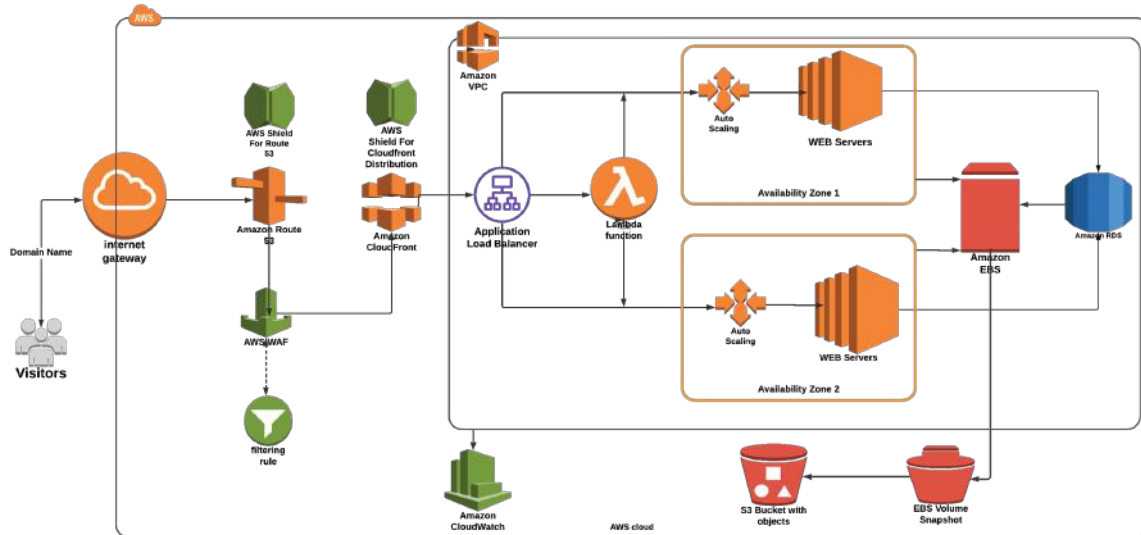

With Large Platform comes Larger

SECURITY NEEDS

OKOMMERCE understands your security needs, and hence we follow sophisticated Encryption technology to store the customer's data. We follow and make sure the platform is built with globally popular security protocols.

OKOMMERCE
CLOUD

OKOMMERCE
